Reset

## Instructions

Turn on the headphones: Install 2 x AAA batteries into the battery compartment on the side of the wireless headphones. Turn on your headphones by sliding the On/Off dial switch upwards.

Install the transmitter: Install 2 x AAA batteries into the battery compartment on the bottom of the wireless transmitter. Alternatively, plug the AC adapter into the adapter port on the back of the wireless transmitter. Connect the transmitter to your device using the red RCA input or the auxiliary input. Please follow the diagrams below:

Listen to your TV or MP3 audio: On the back of the wireless transmitter, slide the mode selector switch from "Off" to "Wireless Earphone". Turn on the headphones and press the "Scan" button to pair with the wireless transmitter. Keep pressing until you hear the signal from your device. Press the restart button and press scan again if you only hear FM channels.

Listen to FM radio: Turn off the wireless transmitter. Turn on the wireless headphones and press scan to find your desired FM radio station.

Use your wireless transmitter as an audio monitor: On the back of the wireless transmitter, slide the mode selector switch from "Off" to "Monitor". Turn on the headphones and press the "Scan" button to pair with the wireless transmitter. Keep pressing until you hear the signal from your device. Press the restart button and press scan again if you only hear FM channels. Place the wireless transmitter in the area you wish to monitor.

Use your wireless transmitter to chat:

On the back of the wireless transmitter, slide the mode selector switch from "Off" to "Audio Chat". Turn on the headphones and press the "Scan" button to pair with the wireless transmitter. Keep pressing until you hear the signal from your device. Press the restart button and press scan again if you only hear FM channels. Plug in another set of headphones with microphone into the headphone jack on the back of wireless transmitter to talk to another person wearing the wireless headphones.
