INSTRUCTIONS:

• See main mount photos for reference
  **Warning: Do not attach to vent with your device mounted**
• Easily clip vent mount onto vent
• Make sure that the mount is secure before installing your device
• Extend the mount's right arm, then place your device in the cradle and carefully
  release the arm so it adjusts to the width of your device. The pressure will hold
  your device in place.
• Make sure your device is secure before letting go of your device
