

# Magnetic Flex/Grip Mount

## *Incredibly Easy to Use!*

Our super low-profile magnetic phone mount offers a subtle alternative to traditional dash or windshield-mounted phone mounts. Flexible jaws grip your car's air vent, securing the mount in place. Included square or circular magnets adhere to the back of your phone. Place your phone against the magnetic vent mount, and the ferromagnetic base will tightly hold it in place. A ball-and-socket joint allows you to rotate your phone for optimal positioning even when it is mounted to your vent. Gently pull against the mount to remove your phone. It's that easy. When not in use, the vent mount's low-profile design will not obstruct or disturb the vent's natural airflow. Remove the mount from your car and use it as a tabletop stand to watch movies on your device. Simple and functional, our magnetic phone mount is a must-have for mobile or at-home usage.

## Functional and Durable!

### Features

- Included square/circular magnetic strips securely adhere to the back of the device
- Mount can be used in the car in a vent mount configuration or at home as a stand
- Ferromagnetic mount is strong enough for plus sized smartphones
- Rotating mount for optimal phone positioning
- Compact vent mount will not disrupt airflow
